

step 1 Start by clicking MAIL in the top left corner, then [PREFERENCES](#).

step 2 Once you're on the general settings page, now click [ACCOUNTS](#).

step 3 On the right side of the accounts page, click [SERVER SETTINGS](#)

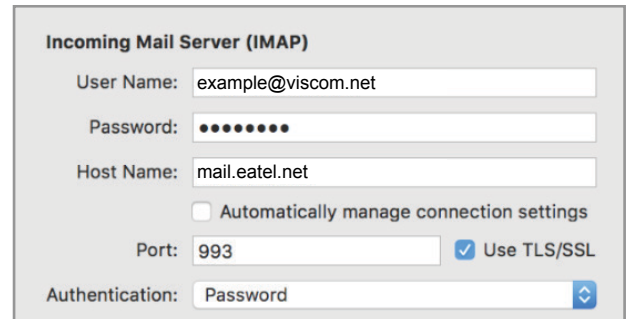

step 4 From the server settings page, make sure the box next to AUTOMATICALLY MANAGE CONNECTION SETTINGS is [UNCHECKED](#) for both INCOMING and OUTGOING MAIL.

step 5

Now you will need to make sure the server settings are as follows:
UNDER INCOMING SERVER IMAP
HOST NAME: mail.eatel.net
PORT NUMBER: 993
USE TLS/SSL is [SELECTED](#)

Incoming Mail Server (IMAP)

User Name:

Password:

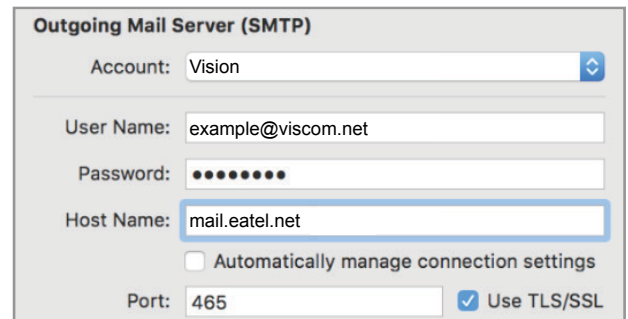

Host Name:

Automatically manage connection settings

Port: Use TLS/SSL

Authentication:

UNDER OUTGOING SERVER SMTP
HOST NAME: mail.eatel.net
PORT NUMBER: 465
USE TLS/SSL is [SELECTED](#)

Outgoing Mail Server (SMTP)

Account:

User Name:

Password:

Host Name:

Automatically manage connection settings

Port: Use TLS/SSL

All other information can be left as is on this page.

step 6

At the bottom right of the screen, click [SAVE](#) then from the top left of the screen click the [RED BUTTON](#) to exit out.
